

Dipotassium Glycyrrhizate

RATING: EXCELLENT

- **CAS #:** 68797-35-3 | **EC #:** 272-296-1

Chemical/IUPAC Name: .Alpha.-D-Glucopyranosiduronic Acid, (3.Beta.,20.Beta.)-20-Carboxy-11-Oxo-30-Norolean-12-En-3-Yl 2-O-.Beta.-D-Glucopyranuronosyl-, Dipotassium Salt

- **INCI name:** DIPOTASSIUM GLYCYRRHIZATE
- **EINECS/ELINCS number:** 272-296-1

Quick Facts

- Also known as Licorice
- Skin conditioning ingredient that can improve the appearance of dry, damaged skin
- Derived from licorice root extract native to areas of India
- Used in traditional Chinese medicine for thousands of years because of its soothing effects on the skin
- Can function as an emulsifier and can help mix water and oil together

Who can use it?

Anyone who has shown no signs of irritation or allergic reaction to the ingredient.

What is Dipotassium Glycyrrhizate?

Derived from the licorice root extract, dipotassium glycyrrhizate has a vast history of providing deeply nourishing skin conditioning with clinical studies showing it to be an effective treatment for atopic dermatitis or eczema due to the fact it is able to reduce redness and irritation. Containing anti-inflammatory properties that can soothe the skin you will also find this ingredient can help regulate sebum making it an effective skincare ingredient for a variety of skin concerns, including acne and blemish flare-ups. Not only that, but you will also find pigmentation is also reduced with licorice root extract considered one of the safest skin lightening agents available on the market with the least amount of side effects.

Side effects of Dipotassium Glycyrrhizate

No known unless you have a specific allergy to the ingredient itself, which is why it's advisable to seek the advice of a doctor or dermatologist if you have any concerns.

Dipotassium Glycyrrhizate หรือ Dipotassium Glycyrrhizinate สารสกัดจากชะเอมเทศ (Licorice) ทำหน้าที่ลดการอักเสบ ลดการแพ้ ช่วยให้ผิวแข็งแรง

Dipotassium Glycyrrhizate มีผลการทดลองยืนยันจำนวนมาก และถูกใช้ในผลิตภัณฑ์จำนวนมาก เนื่องจากเป็นที่ยอมรับในด้านการลดการระคายเคืองผิวมาเป็นระยะเวลายาวนาน

กรุณาตรวจสอบข้อมูลเพิ่มเติม ในการคุณสมบัติ และการวิจัย ในเอกสารโบรชัวร์

คำเตือน:

Dipotassium Glycyrrhizate ไม่ได้ให้ผลทางด้านความขาว (whitening) ตามที่มีการแอบอ้างกันเป็นจำนวนมาก โดย Dipotassium Glycyrrhizate มีผลการวิจัยยืนยันเพียงช่วยลดการระคายเคืองให้ผิวกับ แต่ไม่มีผลการวิจัยใดๆ เกี่ยวข้องกับการให้ผิวขาว
